

Erin Bird  
Fair Trade Calgary

October 9, 2019

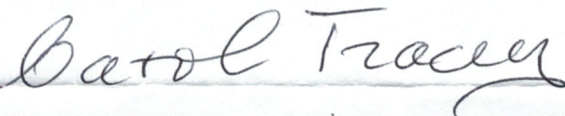

Dear Ms. Bird:

***Advocating for Animal Welfare and the Environment*** supports the campaign to have Calgary recognized as a Fair - Trade Town and supports raising awareness about the multiple benefits and opportunities relating to fair trade for our community and for producers around the world.

I believe that world economies need to become immersed in fair trade in order to promote social justice, environmentally-sound sourced products, and compassion for those struggling to survive in the severity of the current global economy.

When participating in events I display information/items concerning fair trade e.g. magazines, bookmarks, baskets, clothing co-operatives, and chocolates, because I believe that advocating for fair trade is synonymous with the ethics ***Advocating for Animal Welfare and the Environment*** embraces.

Sincerely,

Carol Tracey, Founder ***Advocating for Animal Welfare and the Environment***  
208 – 7239 Sierra Morena Blvd SW  
Calgary, AB T3H 3L7
