

Erin Bird  
Director  
Fair Trade Calgary

May 15, 2020

Dear Erin,

**Subject: Support for Calgary to become a Fair Trade Town**

The Calgary Social Capital Society is pleased to announce its support towards Fair Trade Calgary and the campaign to have Calgary be recognized as a Fair Trade Town.

As a registered, non-profit organization, the Calgary Social Capital Society serves a two-fold purpose in achieving the ultimate goal of uniting all citizens into global peace and catalyzing the day-by-day process of hosting social networking events and providing interest-free loans for social and personal projects. Currently, the Society brings together people from all walks of life on a weekly basis for dialogue sessions where the human connection is enhanced through storytelling and conversation. Experiences also extend to poetry and music nights, wilderness survival, and more.

With a goal to unite people and empower productive members of society, we agree with what the global fair trade movement aims to accomplish. Ethical commerce empowers producers and contributes to a more equitable, fair, and better world.

We wish Fair Trade Calgary the very best and look forward to our beloved city achieving this designation in the near future.

Sincerely,

Michael Falconar  
President
