Erin Bird
Fair Trade Calgary

May 10, 2021

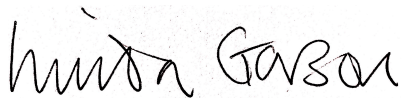

Dear Ms. Bird,

Culinaire Magazine supports the campaign to have Calgary recognized as a Fair Trade Town and supports raising awareness about the benefits and opportunities of fair trade for our community and for producers around the world.

I have personally been a supporter of Fair Trade all my life, and have brought this ethos into Culinaire Magazine too. In the world of wine, there are many good Fair Trade wines and we try to support and promote them at our events, as well as in print.

Many other foodstuffs benefit from the Fair Trade movement, including coffee, chocolate, herbs and spices, sugar, and rice, and we are always on the lookout for these products to let other people know about them, as well as including articles on Fair Trade itself and what it means.

Sincerely,

Linda Garson
