Erin Bird  
Fair Trade Calgary

Dear Ms. Bird,

Infinite Mind Pictures supports the campaign to have Calgary recognized as a Fair Trade Town and supports raising awareness about the benefits and opportunities of fair trade for our community and for producers around the world.

At Infinite Mind we support social justice and sustainability activities and are a regular contributor to Reconciliation Canada, for example. We have Fair Trade coffee on site and use Fair Trade Camino sugar and one of our projects involves using Minecraft to explore a Sustainable Earth economic simulation.

Sincerely,

A handwritten signature in black ink, appearing to read 'S. Rasporich', with a stylized flourish extending from the end.
